

GUIDELINES FOR CARDIOVASCULAR TECHNOLOGIST LICENSURE WITHIN DHCC

An applicant for licensure to practice as a cardiovascular technologist in the DHCC must meet the following requirements in order to qualify for licensure:

Cardiovascular Technologist:

- Completion of a cardiovascular technology program from a recognized educational institution, college or university in which:
 - Program must be a minimum of two (2) years in length
 - Program must include both didactic and clinical experiences in invasive and noninvasive cardiology
- A current license, registration or certificate to practice in good standing
- Registration with one of the following:
 - Cardiovascular Credentialing International or the equivalent thereof for specialization in cardiac catheterization, vascular ultrasound echocardiography or cardiographic techniques.
- American Registry of Diagnostic Medical Sonographers or equivalent thereof, for specialization in vascular technology
- 2 years experience in designated field
- Current and valid Advanced Cardiac Life Support (ACLS)
- English proficiency programs, if the language of instruction of the cardiovascular technology program is not in English
- Favorable references
