

Midwife Continuing Education Requirements

Continuing education (CE) consists of educational activities which serve to maintain, develop, or increase the knowledge, skills, and professional performance and relationships that a health care professional uses to provide services for patients, the public, or the profession. The content of CE is required to be knowledge and skills generally recognized and accepted by the profession.

You are responsible for choosing learning activities, documenting your learning activities on the Professional Development Portfolio (PDP), and keeping track of your CE. The Licensing Department will randomly select PDP's for auditing purposes. If your PDP is selected, the LD will ask you to verify the continuing education that has been documented. You will have thirty (30) days to send proof of your documented continuing education to the License Department.

All relevant continued education that has been acquired during your DHCC license period will need to be documented on the "Professional Development Portfolio". A copy of this Professional Development Portfolio is provided for you in this information booklet and can be downloaded from our website www.cpq.dhcc.ae CPQ, Healthcare Professional Licenses.
