

Circular 268: Health and Safety Measures on Construction Sites in Adverse Weather Conditions

Dear Customer,

Due to the current weather conditions in Dubai, Dubai Creative Clusters Authority (DCCA), urges all Consultants, Contractors, Project Managers, HSE Officers and other concerned individuals to ensure they are properly informed of the specific health and safety measures for adverse weather conditions that should be implemented on construction sites.

The Occupational Safety and Health Center Abu Dhabi (OSHAD), has published two comprehensive guidelines that aim to provide advice and guidance for employers and employees on the risks, and to provide information on the control measures that can be considered in order to mitigate these risks. Click on the cover image of each Guideline below to view:

If you have any queries or wish to give feedback, please contact DCCA Customer Care on tel: 800-4-DCCA (3222) or via email: info@dcca.gov.ae.
